# Overview of the 2022 Accountability System

The overall design of the accountability system evaluates performance according to three domains: Student Achievement evaluates performance across all subjects for all students, on both general and alternate assessments; College, Career, and Military Readiness (CCMR) indicators; and graduation rates. School Progress measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages. Closing the Gaps uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic background, and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA).

The [overall design of the accountability](#) system evaluates performance according to Three domains:

**Domain 1. Student Achievement** evaluates performance across all subjects for all students, on both general and alternate assessments; College, Career, and Military Readiness (CCMR) indicators; and graduation rates.

**Domain 2. School Progress** measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

Part A: Academic Growth Credit awarded for students who improve performance year over year as measured by STAAR progress measures and performance levels on STAAR reading and mathematics.

Part B: Relative Performance Credit awarded based on performance relative to districts or campuses with a similar percentage of economically disadvantaged students.

**Domain 3. Closing the Gaps** uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic background, and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA).

| Accountability System |                 |                  |
|-----------------------|-----------------|------------------|
| Domain 1              | Domain 2        | Domain 3         |
| Student Achievement   | School Progress | Closing the Gaps |
|                       |                 |                  |

## Rating Labels

Districts and campuses receive an overall rating, as well as a rating for each domain. The rating labels for districts and campuses are as follows.

- **A, B, or C:** Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability (AEA)) that meet the performance target for the letter grade
- **Not Rated:** Indicates that a district or campus does not receive a rating for one or more of the following reasons:
  - The district or campus has no data in the accountability subset.
  - The district or campus has insufficient data to assign a rating.
  - The district operates only residential facilities.
  - The campus is a juvenile justice alternative education program (JJAEP).
  - The campus is a disciplinary alternative education program (DAEP).
  - The campus is a residential facility.
  - The commissioner otherwise determines that the district or campus will not be rated.
- **Not Rated:** Senate Bill 1365: Assigned in 2022 for overall performance to districts and campuses that do not meet the performance target to earn at least a C.
- **Not Rated:** Data Under Review indicates data accuracy or integrity may have compromised performance results, making it impossible to assign a rating. The assignment of a Not Rated: Data Under Review label is temporary while the data are reviewed.
- **Not Rated:** Data Integrity Issues indicates data accuracy or integrity have compromised performance results, making it impossible to assign a rating. The assignment of a Not Rated: Data Integrity Issues label is permanent.
- **Not Rated:** Annexation indicates that the campus is in its first school year after annexation by another district and, therefore, is not rated, as allowed by the annexation agreement with the agency.

### Single-Campus Districts

For single-campus school districts and charter schools, the 2022 performance targets applied to the campus are also applied to the district, ensuring that both the district and campus receive identical ratings. School districts or charter schools that meet the definition above are considered single-campus districts or charter schools in any criteria outlined in this manual.

## Distinction Designations

Districts and campuses that receive accountability ratings of A, B, C, or D are eligible to earn distinction designations. Distinction designations are awarded for achievement in several areas and are based on performance relative to a group of campuses of similar type, size, grade span, and student demographics. Districts are eligible for a distinction designation in postsecondary readiness. Please see "[Chapter 6—Distinction Designations](#)" for more information.

### Distinction Designation Labels

Districts and campuses that receive acceptable accountability ratings are eligible to earn distinction designations. Distinction designations are awarded for achievement in several areas and are based on performance relative to a group of campuses of similar type, size, grade span, and student demographics. Districts are eligible for a distinction designation in postsecondary readiness.

The Distinction Designation Reports show one of the following labels for each distinction designation:

- **Distinction Earned (E).** The district or campus is rated A, B, C, or D and meets the criteria for the distinction designation.
- **No Distinction Earned (N).** The district or campus is rated F or does not meet the criteria for the distinction designation.
- **Not Eligible.** The district or campus does not have results to evaluate for the distinction designation, is not rated, is evaluated by alternative education accountability (AEA) provisions, or is a campus paired with a feeder campus for accountability evaluation.

| Campus                      | Rating | Score | Domains |    |    |    |    | Distinctions in Academic Achievements |      |         |                |          |                 |                          |   |
