

Information About Brokerage Services

Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

TYPES OF REAL ESTATE LICENSE HOLDERS:

- **A BROKER** is responsible for all brokerage activities, including acts performed by sales agents sponsored by the broker.
- **A SALES AGENT** must be sponsored by a broker and works with clients on behalf of the broker.

A BROKER'S MINIMUM DUTIES REQUIRED BY LAW (A client is the person or party that the broker represents):

- Put the interests of the client above all others, including the broker's own interests;
- Inform the client of any material information about the property or transaction received by the broker;
- Answer the client's questions and present any offer to or counter-offer from the client; and
- Treat all parties to a real estate transaction honestly and fairly.

A LICENSE HOLDER CAN REPRESENT A PARTY IN A REAL ESTATE TRANSACTION:

AS AGENT FOR OWNER (SELLER/LANDLORD): The broker becomes the property owner's agent through an agreement with the owner, usually in a written listing to sell or property management agreement. An owner's agent must perform the broker's minimum duties above and must inform the owner of any material information about the property or transaction known by the agent, including information disclosed to the agent or subagent by the buyer or buyer's agent.

AS AGENT FOR BUYER/TENANT: The broker becomes the buyer/tenant's agent by agreeing to represent the buyer, usually through a written representation agreement. A buyer's agent must perform the broker's minimum duties above and must inform the buyer of any material information about the property or transaction known by the agent, including information disclosed to the agent by the seller or seller's agent.

AS AGENT FOR BOTH - INTERMEDIARY: To act as an intermediary between the parties the broker must first obtain the written agreement of each party to the transaction. The written agreement must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. A broker who acts as an intermediary:

- Must treat all parties to the transaction impartially and fairly;
- May, with the parties' written consent, appoint a different license holder associated with the broker to each party (owner and buyer) to communicate with, provide opinions and advice to, and carry out the instructions of each party to the transaction.
- Must not, unless specifically authorized in writing to do so by the party, disclose:
 - that the owner will accept a price less than the written asking price;
 - that the buyer/tenant will pay a price greater than the price submitted in a written offer; and
 - any confidential information or any other information that a party specifically instructs the broker in writing not to disclose, unless required to do so by law.

AS SUBAGENT: A license holder acts as a subagent when aiding a buyer in a transaction without an agreement to represent the buyer. A subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first.

TO AVOID DISPUTES, ALL AGREEMENTS BETWEEN YOU AND A BROKER SHOULD BE IN WRITING AND CLEARLY ESTABLISH:

- The broker's duties and responsibilities to you, and your obligations under the representation agreement.
- Who will pay the broker for services provided to you, when payment will be made and how the payment will be calculated.

LICENSE HOLDER CONTACT INFORMATION: This notice is being provided for information purposes. It does not create an obligation for you to use the broker's services. Please acknowledge receipt of this notice below and retain a copy for your records.

GENERAL INFORMATION AND NOTICE TO BUYERS AND SELLERS

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc. 2018

Be an informed seller or buyer. The following information may assist you during your real estate transaction.

ANNEXATION. If a property is outside the limits of a municipality, the buyer should be aware that the property may later be annexed by a nearby municipality. The buyer may find information on the boundaries of nearby municipalities by contacting the municipalities directly.

APPRAISAL. An appraisal is a valuation of the property. An appraiser renders an estimate of value as of a certain date under assumptions and conditions stated in the appraisal report. Typically, a buyer's lender requires an appraisal to verify that the loan is secured by property that is worth a certain amount. An appraisal is not the same as an inspection.

BROKERS. A real estate broker *represents* a party (buyer or seller) in a real estate transaction or may act as an intermediary between the parties. A party may work with the broker or with one of the broker's agents. Both a buyer and seller will be provided a form titled "Information About Brokerage Services" (TXR 2501) which defines agency relationships. An agent may help a seller market the property or help a buyer locate a property. The agent is obligated to *negotiate* the transaction and may assist in gathering information and may coordinate many details in the transaction. Brokers and agents are not inspectors. They do not possess the expertise to conduct inspections and therefore do not make any representations, warranties, or guarantees about a property's condition. Agents are not attorneys. Parties are encouraged to seek the assistance of an attorney to help in understanding any of the legal consequences and provisions of the contract or transaction.

ENVIRONMENTAL CONCERNS.

General. Over the years the market has identified environmental conditions that buyers should know may exist. Environmental hazards include, but are not limited to, conditions such as: asbestos, lead-based paint, mold, pesticides, radon gas, toxic waste, underground storage tanks, urea-formaldehyde insulation, and other pollutants. Wetlands or endangered species on the property may restrict the use of the property.

Environmental Inspections. If the buyer is concerned that environmental hazards, wetlands, or endangered species may be present on the property, the buyer should hire a qualified expert to inspect the property for such items. The parties may include a promulgated addendum (TXR 1917) in the contract that may address such matters.

Lead-Based Paint. If a property was built before 1978, federal law requires that the seller provide the buyer with: (1) the pamphlet titled "Protect Your Family from Lead in Your Home" (TXR 2511); (2) the records and reports the seller has concerning lead-based paint or hazards; and (3) an opportunity to have the property inspected for lead-based paint or hazards.

Mold. It is not uncommon to find mold spores in a property. The concern about mold increases when there are large amounts of mold found in a property. The Texas Department of Insurance publishes a document titled "Protect Your Home from Mold" (TXR 2507) which discusses mold in more detail.

Oak Wilt and Diseased Trees. There are diseases such as oak wilt and other conditions that may affect trees and other plants. Oak wilt is a fungus that affects certain oak trees. If the buyer is concerned about such matters, the buyer may have the trees and other plants inspected by a professional.

Noise. Surrounding properties are used for a variety of purposes. Some of the uses cause noise (for example, airports, railways, highways, restaurants, bars, schools, arenas and construction). The buyer is encouraged to drive to review the area around the property at various times and days.

EXPANSIVE SOILS. Soil conditions vary greatly throughout Texas. Many soils will move; some more than others. This movement will, many times, affect the foundation of homes and buildings and may cause cracks to appear in walls or other parts of the building. Additionally, if a property is newly constructed, the concrete curing process may also cause the foundation of the building to move. Seasonal changes in the moisture in the soil may also cause foundations to move. The buyer should check with an inspector and other experts on preventive methods to minimize the risk of such movement.

FIRPTA. The Foreign Investment in Real Property Tax Act of 1980 (FIRPTA) may require buyers in certain transactions involving a seller who qualifies as a "foreign person" to withhold up to 15% of the amount realized by the seller (usually the sales price) for federal taxes. A "foreign person" is defined as a: (1) nonresident alien individual; (2) foreign corporation that has not made an election under section 897(i) of the Internal Revenue Code to be treated as a domestic corporation; or (3) foreign partnership, trust, or estate. The definition does not include a resident alien individual. A seller should notify the buyer whether the seller is a "foreign person" as defined by federal law. If the seller is unsure whether he or she qualifies as a "foreign person", the seller should consult a tax professional or an attorney.

FLOOD HAZARD, FLOODWAYS, AND FLOOD INSURANCE. Many properties are in flood hazard areas. Lenders who make loans on properties located in special flood hazard areas typically require the owner to maintain flood insurance. Additionally, some properties may lie in the floodway. Texas REALTORS® publishes a form titled, "Information about Special Flood Hazard Areas" (TXR 1414), which discusses flood hazard areas and floodways in more detail. The buyer is encouraged to buy flood insurance regardless of whether the property is in a high, moderate, or low risk flood area.

HISTORIC OR CONSERVATION DISTRICTS. Properties located in historic or conservation districts may have restrictions on use and architecture of the properties. Local governments may create historic or conservation districts for the preservation of certain architectural appeal. A property owner may or may not be aware if the property is located in such a district. If the buyer is concerned whether the property is located in such a district, contact the local government for specific information.

INSPECTION, REPAIRS, & WALK-THROUGH.

Inspections. The buyer is encouraged to have the property inspected by licensed inspectors. The buyer should have the inspections completed during any option period. The buyer should accompany the inspectors during the inspections and ask the inspectors any questions. Brokers and agents do not possess any special skills, knowledge or expertise concerning inspections or repairs. If the buyer requests names of inspectors or repair professionals from an agent, the buyer should note that the agent is not making any representation or warranty as to the ability or workmanship of the inspector or repair professionals.

Repairs. The buyer and the seller should resolve, in writing, any obligation and any timing of the obligation to complete repairs the buyer may request before the option period expires.

Walk-Through. Before the close of the sale, the buyer should walk through the property and verify that any repairs are complete. If the condition of the property does not satisfy the contractual provisions, the buyer should notify the buyer's agent before closing.

MANDATORY OWNERS' ASSOCIATIONS. An owners' association may require a property owner to be a member. The buyer may obtain subdivision information (the restrictions applying to the subdivision, the bylaws and rules of the owners' association, and a resale certificate). The buyer may be required to pay for the subdivision information unless otherwise negotiated in the contract. If membership in an owners' association is required, the buyer will probably be obligated to pay periodic dues or assessments. Failure to pay such dues could result in a lien on and foreclosure of the property.

MINERAL INTERESTS. Determining who owns the mineral interests under a property (for example, rights to oil and gas interests) normally requires an expert to review the chain of title to the property. Many times the mineral interests may have been severed from the property and may be owned by persons other than the seller. Contract forms commonly used in Texas provide that the seller's interest, if any, in the mineral interests convey to the buyer as part of the property. However, a seller may wish to retain all or part of the mineral interests. Texas REALTORS® publishes a form titled "Information about Mineral Clauses in Contract Forms" (TXR 2509) which discusses this issue in more detail.

(TXR-1506) 04-26-21

Page 2 of 5

MULTIPLE LISTING SERVICE. The Multiple Listing Service (MLS) is a database and cooperative tool between brokers. Agents who use the MLS must comply with the MLS's rules. The listing agent is required to timely report the current status of a listing, including when the property is sold or leased or is no longer available, as well as the sales price. Subscribers (other brokers, agents, appraisers, and other real estate professionals) and appraisal districts have access to the information for market evaluation purposes. Much of the information in the MLS, such as square footage, assessed value, taxes, school boundaries, and year built is obtained from different sources such as the county appraisal district, an appraiser, or builder. The broker or agent who provides information from the MLS does not verify the accuracy of the information. The buyer should independently verify the information in the MLS and not rely on the information.

PERMITS. Permits may be required to construct, alter, repair, or improve the property. The buyer is encouraged to contact the local government to verify that all required permits have been obtained, as this may impact future plans for the property.

POSSESSION. Most contracts provide that the seller will deliver possession of the property to the buyer at the time the sale *closes and funds or according to a temporary residential lease or other written lease required by the parties*. There may be a short delay between closing and actual funding; especially if the buyer is obtaining funds from a lender. The buyer may need to verify with the lender if the loan will fund on the day of closing. The buyer should also take this potential delay into account when planning the move into the property. Any possession by the buyer before the sale closes and funds (or by the seller after the sale closes and funds) must be authorized by a written lease.

PROPERTY INSURANCE. Promptly after entering into a contract to buy a property and before any option period expires, the buyer should contact an insurance agent to determine the availability and affordability of insurance for the property. There are numerous variables that an insurance company will evaluate when offering insurance at certain coverage levels and at certain prices. Most lenders require that the property be insured in an amount not less than the loan amount. The failure to obtain property insurance before closing may delay the transaction or cause it to end. Texas REALTORS® publishes a document titled, "Information about Property Insurance for a Buyer or Seller" (TXR 2508), which discusses property insurance in more detail.

PROPERTY VALUES. The real estate market is cyclical and current property values may fluctuate. Brokers and agents cannot guarantee desired future market conditions or property values. The ultimate decision on the price and terms a Buyer is willing to buy and a Seller is willing to sell for a specific property rests solely with that Buyer and Seller.

RESIDENTIAL SERVICE CONTRACTS. A residential service contract is a product under which a residential service company, for an annual fee, agrees to repair or replace certain equipment or items in a property (for example, covered appliances, air conditioning and heating systems, and plumbing systems). Co-payments typically apply to most service calls. If the buyer requests names of residential service companies from an agent, the buyer should note that the agent is not making any representation or warranty about the service company.

RESTRICTIONS ON PROPERTY NEAR AN INTERNATIONAL BORDER. Be aware that in certain counties located near an international border, Texas law may prohibit the sale of property lacking required water and sewer services. Even if a sale of such property is permitted, a buyer may face additional costs or restrictions under Texas law due to a lack of basic infrastructure (water, sewer, roads, and drainage). Texas REALTORS® publishes a form titled, "Information Regarding Property Near an International Border" (TXR 2519), which provides more information. Brokers and agents cannot guarantee that a sale of the property is permitted under Texas law or otherwise give legal advice. Consult an attorney.

SCHOOL BOUNDARIES. School boundaries may change and are, at times, difficult to determine. The school boundaries that an agent may provide or that may be provided through a Multiple Listing Service are only mapped estimates from other sources. The buyer is encouraged to verify with the school district which schools residents in the property will attend.

(TXR-1506) 04-26-21

Page 3 of 5

SEPTIC TANKS AND ON-SITE SEWER FACILITIES. Many properties have septic tanks or other on-site sewer facilities. There are several types of such systems. Special maintenance requirements may apply to certain systems. Please refer to a document titled, "Information about On-Site Sewer Facility" (TXR 1407) for more information. The buyer should also determine if the county requires any registration or other action to begin using the septic system or on-site sewer facility.

SEX OFFENDERS AND CRIMINAL ACTIVITY. Neither a seller nor a seller's agent of a residential property has a duty to disclose any information about registered sex offenders. If the buyer is concerned about sex offenders who may reside in the area, access <https://publicsite.dps.texas.gov/SexOffenderRegistry>. Contact the local police department to obtain information about any criminal activity in the area.

SQUARE FOOTAGE. If the purchase price is based on the size of the property's building and structures, the buyer should have any information the buyer receives about the square footage independently verified. Square footage information comes from other sources such as appraisal districts, appraisers, and builders. Such information is only an estimate. The actual square footage may vary.

STATUTORY TAX DISTRICTS. The property may be located in a utility or other statutorily created district providing water, sewer, drainage, or flood control facilities and services (for example a Municipal Utility District, Water Improvement District, or a Public Improvement District). The buyer is likely to receive a prescribed notice when buying property in such a district.

SURVEILLANCE. Be aware that when viewing a property, a seller might record or otherwise electronically monitor a buyer without the buyer's knowledge or consent, and a buyer might photograph or otherwise record the property without the seller's knowledge or consent. The parties should consult an attorney before recording or photographing another person or property.

SURVEY. A survey identifies the location of boundaries, major improvements, fence lines, drives, encroachments, easements, and other items on the property. The buyer should obtain a survey early enough in the transaction to help the buyer identify any encroachments, encumbrances to title, or restrictions. The contract will typically contain a provision which identifies who is responsible for providing a survey and the right to object to encumbrances to title disclosed in the survey.

SYNTHETIC STUCCO. Synthetic stucco (sometimes known as EIFS) is an exterior siding product that was placed on some properties in the recent past. If the product was not properly installed, it has been known to cause damage to the structure (such as wood rot and moisture). If the property has synthetic stucco, the buyer should ask an inspector to carefully inspect the siding and answer any questions.

TAX PRORATIONS. Typically, a buyer and seller agree to prorate a property's taxes through the closing date. Property taxes are due and payable at the end of each calendar year. The escrow agent will estimate, at closing, the taxes for the current year. If the seller is qualified for tax exemptions (for example, homestead, agricultural, or over-65 exemption), such exemptions may or may not apply after closing. After closing the taxes may increase because the exemptions may no longer apply. When buying new construction, the taxes at closing may be prorated based on the land value only and will later increase when the appraisal district includes the value of the new improvements. The actual taxes due, therefore, at the end of the year and in subsequent years may be different from the estimates used at closing.

TERMINATION OPTION. Most contract forms contain an option clause which provides the buyer with an unrestricted right to terminate the contract. Most buyers choose to buy the termination option. The buyer will be required to pay for the termination option in advance. The option fee is negotiable. Most buyers will conduct many of their reviews, inspections, and other due diligence during the option period. The buyer must strictly comply with the time period under the option. The option period is not suspended or extended if the buyer and the seller negotiate repairs or an amendment. If the buyer wants to extend the option period, the buyer must negotiate an extension separately, obtain the extension in writing, and pay an additional fee for the extension. The buyer should not rely on any oral extensions.

TIDE WATERS. If the property adjoins any of the state's tidal waters, the seller will provide the buyer with a prescribed notice titled, "Addendum for Coastal Area Notice" (TXR 1915). Boundaries of properties along such waters may change and building restrictions will apply. If the property is located seaward of the Gulf Intracoastal Waterway, the seller will provide the buyer with a prescribed notice titled, "Addendum for Property Located Seaward of the Gulf Intracoastal Waterway" (TXR 1916).

TITLE INSURANCE OR ABSTRACT OF TITLE. The buyer should obtain a title insurance policy or have an abstract of title covering the property examined by an attorney. If the buyer obtains a title insurance policy, the buyer should have the commitment of title insurance reviewed by an attorney not later than the time required under the contract.

UTILITIES. The buyer should evaluate what utilities the buyer will require and check to be sure that the utilities available in the area suit the buyer's needs. Some structures may or may not have utilities and electrical facilities to support many modern appliances or equipment.

WATER LEVEL FLUCTUATIONS. State law requires the seller to notify a buyer of a property that adjoins a lake, reservoir, or other impoundment of water with a storage capacity of at least 5,000 acre-feet at its normal operating level that the water level may fluctuate. The buyer and seller can find a list of lakes and reservoirs with at least 5,000 acre-feet storage capacity by accessing <http://texasalmanac.com/topics/environment/lakes-and-reservoirs>.

WATER WELLS. If the property has a water well, the buyer should have, and the lender may require, the equipment inspected and water tested. The buyer should also determine if the county requires any registration or other action to begin using the water well.

WIRE FRAUD. Criminals are targeting real estate transactions by gaining access to electronic communications or sending emails that appear to be from a real estate agent, a title company, lender, or another trusted source. Refrain from transmitting personal information, such as bank account numbers or other financial information, via unsecured email or other electronic communication. If the buyer receives any electronic communication regarding wiring instructions, even if the communication appears to come from a legitimate source, the buyer should verify its authenticity prior to the transfer of funds in person or via phone call using a recognized phone number that is not found in the communication.

WIRE FRAUD WARNING

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc. 2018

Buyers and Sellers Beware: Criminals are targeting real estate transactions. Don't be a victim of wire fraud.

What is wire fraud and how does it occur? Criminals are targeting real estate transactions by gaining access to electronic communications or sending emails that appear to be from a real estate agent, a title company, a lender, or another trusted source. These fraudulent emails seem legitimate and direct you to wire funds to a fraudulent account. Once you wire funds to the fraudulent account, your money is gone.

How can you protect yourself from wire fraud? You should not send personal information, such as bank account numbers or other financial information, via email or other unsecured electronic communication.

If you receive any electronic communication regarding wiring instructions, even if the communication appears to come from a legitimate source, you should verify the communication's authenticity prior to the transfer of funds in person or via phone call using a recognized phone number that is not found in the communication.

Notice: This brokerage will never use any electronic communications, such as email, text messages, or social media messages, to ask you to wire funds or provide personal information.

If you think you are being targeted in a wire fraud scam, immediately notify law enforcement, your lender, the title company, and your agent.

NOTICE REGARDING WIRE FRAUD/ CYBER CRIME

RAYMOND LEON
& Associatessm

Please be advised there are scams which involve companies capturing information from unknown sources, which could send an email or text that appears to either be from you, your real estate agent, your lender, or your title company requesting that you wire/transfer funds to an account or that the title company wire your funds to a fraudulent account. This also applies to sending personal/confidential information to someone.

This scam usually works by a fraudster hacking into a title company, lender or real estate broker email system to located communications that identify a transaction ready to close. The fraudster then creates a bogus email to the buyer giving instructions how to wire transfer funds for the closing. The email may appear to be a legitimate email communication from the title company, lender or real estate agent/brokerage without any hint the funds will be wired to an account controlled by the fraudster and not the title company or lender. Once the wire transfer is complete, the funds are then immediately wired again to another account, usually in a foreign country. At that point, there is little hope of ever reversing the wire and stopping the fraud.

DO NOT COMPLY WITH EMAIL INSTRUCTIONS TO WIRE FUNDS OR TO SEND PERSONAL/CONFIDENTIAL INFORMATION!

In order to protect yourself from potential cyber fraud, do the following:

- * NEVER provide personal information to your real estate agent. This information includes your social security number, driver's license number, credit card information, date of birth, or bank account information (unless for Tenant Representation, then Password Protect or Lock any file).
- * NEVER wire transfer funds to a bank account for a Raymond Leon & Associates, LLC agent. There is never a reason why a real estate agent needs possession of funds from a client.
- *
- * NEVER wire transfer funds to a title company pursuant to an email without first contacting the title company by telephone to speak with the closing officer or escrow assistant. DO NOT CALL the title company at the number on the possibly bogus email, but instead use the telephone number found on the title company receipt which is generally the last page of the contract of sale. If you cannot find the telephone number apart from the email, then contact your real estate agent for the correct telephone number.

INFORMATION ABOUT PROPERTY INSURANCE FOR A BUYER OR SELLER

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc. 2014

A. The availability and the affordability of property insurance may affect both the buyer and the seller.

Typically a buyer will seek to insure the property. Most mortgage lenders require that the property be insured in an amount not less than the loan amount. The failure to obtain property insurance at or before closing may delay the transaction or cause it to end, either of which can impose both inconvenience and cost to both the buyer and the seller.

B. There are a number of factors that affect the availability and affordability of insurance.

- (1) The level of coverage will significantly affect the cost of insurance. There are several levels of insurance coverage. For example:
 - (a) a policy may cover the replacement cost of the improvements and the replacement cost of many personal items in the property in the event of most casualties;
 - (b) a policy may cover only value of the improvements and exclude many casualties; or
 - (c) a policy may cover casualties and costs between the two noted extremes under (a) and (b).
- (2) Coverage levels and prices vary from company to company. There are many insurance companies conducting business in Texas who offer a variety of insurance products at various prices.
 - (a) One insurance company may refuse to insure a particular property or person while another insurance company may elect to do so.
 - (b) One insurance company may charge a significantly lower premium than another insurance company for the same or similar coverage.
 - (c) Generally, each insurance company has specific guidelines by which it prices its insurance policies. The following are examples of criteria that an insurance company may use in evaluating an application for insurance. The criteria vary from company to company.
 - (1) Past claims filed against the property to be insured in the 5 years preceding the application.
 - (2) Past claims filed by the applicant to be insured in the 5 years preceding the application.
 - (3) The applicant's insurance credit score.
 - (4) The past relationship between the insurance company and the applicant.
 - (5) The physical characteristics of the property such as condition, age, location, or construction materials.

C. Most insurance companies participate in the Comprehensive Loss Underwriting Exchange (CLUE) and obtain a CLUE report to evaluate the claims history of the property and the applicant.

- (1) Most insurance companies contribute information about claims to an insurance industry database known as CLUE (a registered trademark of Equifax, Inc.). An insurance company obtains a CLUE report when evaluating an application for insurance.
- (2) A CLUE report contains information about the claims history of the property and of the applicant for insurance.
 - (a) The CLUE report contains only data and does not inform the buyer or seller whether insurance is or is not available or at what cost.
 - (b) Insurance companies use the CLUE report in different ways.
 - (c) It is best to speak with an insurance agent with respect to how the information in a particular CLUE report affects the affordability and availability of insurance.

Information about Property Insurance for a Buyer or Seller

- (3) While CLUE reports are generally accurate, there may be errors in the reports.
 - (a) An event may be listed as a claim even though the insurance company did not pay any proceeds (for example, the cost of repair did not exceed the deductible or an inquiry may be incorrectly classified as a claim).
 - (b) Federal law permits a person to challenge inaccurate information. One may contact the administrator of the CLUE report (Lexis-Nexis) to correct information in a CLUE report.
- (4) A property owner may, for a fee, obtain the CLUE report on his or her property through companies such as Lexis-Nexis (<https://personalreports.lexisnexis.com>, 1-866-312-9076), A-Plus (800-709-8842) or other companies, most of whose services are accessible via the Internet. An owner may also contact the Equifax Insurance Consumer Center at 800-456-6004.

D. Promptly after entering into a contract to buy a property in Texas, the buyer should take the following steps to avoid delays in closing and to avoid additional costs.

If the buyer has the option to terminate the contract, the buyer should make sure that the buyer and the insurance agent have completed the following steps before the option expires.

- (1) Contact one or more insurance agents.
 - (a) The buyer should discuss the various levels of coverage with an insurance agent and ask questions that are necessary so the buyer understands the levels of available coverage.
 - (b) Insurance agents can provide applicants with written summaries of the various coverage levels.
 - (c) Basic summaries are available at the websites noted in Paragraph E.
- (2) **Submit an application** for insurance with the insurance agent of the buyer's choice.
 - (a) Applying for insurance promptly after entering into a contract to buy a property helps avoid surprises or delays in closing the transaction.
 - (b) Prompt application permits the buyer time to evaluate various coverage levels and prices.
 - (c) Delaying the application for insurance may limit opportunities to obtain the most suitable coverage and may limit opportunities to address any unforeseen problems or delays in obtaining coverage.
 - (d) In recent years, many transactions have been delayed or terminated because of problems associated with obtaining insurance.
- (3) Ask for written confirmation from the insurance agent that the insurance company:
 - (a) has received the application;
 - (b) has reviewed the applicant's CLUE report; and
 - (c) has conducted all necessary reviews to issue a policy at the particular price quoted (some insurance companies may ask for specific information or may wish to inspect the property).
- (4) Verify that the insurance coverage the buyer chooses is acceptable to the buyer's lender.

E. If one is not able to obtain insurance at a reasonable price or more information is needed, contact the Texas Department of Insurance (www.helpinsure.com or www.tdi.state.tx.us).

INFORMATION ABOUT MINERAL CLAUSES IN CONTRACT FORMS

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc. 2021

This form contains general information about mineral estates in published contract forms.

1. INTRODUCTION: Historically, buyers and sellers of property near urban areas have not been concerned about the conveyance or retention of mineral interests. Mineral interests for such properties may have been severed in the past or the value of the mineral interests may have been relatively insignificant. There has historically been little risk that the owner of the mineral interests under property near urban areas could or would access the surface of the property to drill or excavate for minerals (perhaps, because the property was too small to support such activity or because such activity may have been heavily regulated by a city). In recent years, the discovery of large mineral deposits near urban areas and advances in drilling technologies have led to increased exploration and drilling activities in and near urban areas. In turn, buyers and sellers of property in urban and suburban areas have raised questions as to whether it is best to convey or retain all or part of the mineral interests in a particular sale.

2. WHO OWNS THE MINERALS? Owners of property in or near urban areas typically are not aware of the precise extent of the mineral interests they may own. One may own all or only a portion of the mineral interests. Further, the mineral interests may have been leased. Determining who owns the mineral interests, whether the mineral interests have been leased, and who holds rights under any leases requires an expert (such as an oil and gas attorney) to review the chain of title and formulate an informed opinion.

3. CONTRACT FORMS: The residential contract forms promulgated by the Texas Real Estate Commission and the commercial contract forms published by Texas REALTORS® provide that the seller will convey to the buyer all of the seller's rights associated with the property, including all mineral interests and any rights held under any mineral leases by the seller. If a seller wishes to reserve all or a part of the mineral interests and rights held by the seller in a residential transaction, the seller **must** use the Texas Real Estate Commission's *Addendum for Reservation of Oil, Gas, And Other Minerals* (TREC No. 44-2, TXR No. 1905). If the addendum is not attached to the sales contract, the seller conveys to the buyer all of the mineral interests and rights held by the seller at the time of the transaction. In a farm & ranch transaction, the seller may use the TREC promulgated form, but may also use any addendum prepared by an attorney or by either party.

4. RESOURCES: One may find information related to mineral estates and mineral leases through many sources, including but not limited to: (a) the Real Estate Research Center (www.recenter.tamu.edu); and (b) the Railroad Commission of Texas (www.rrc.texas.gov). There are many other useful sources that one can access via the Internet through most Internet search engines.

The undersigned acknowledge receipt of this notice.

INFORMATION ABOUT SPECIAL FLOOD HAZARD AREAS

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc., 2021

CONCERNING THE PROPERTY AT _____

A. FLOOD AREAS:

- (1) The Federal Emergency Management Agency (FEMA) designates areas that have a high risk of flooding as special flood hazard areas.
- (2) A property that is in a special flood hazard area is designated on flood insurance rate maps with a zone beginning in a "V" or "A". Both V-Zone and A-Zone areas indicate a high risk of flooding.
- (3) Some properties may also lie in the "floodway" which is the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge a flood under FEMA rules. Communities must regulate development in these floodways.

B. AVAILABILITY OF FLOOD INSURANCE:

- (1) Generally, flood insurance is available regardless of whether the property is located in or out of a special flood hazard area. Contact your insurance agent to determine if any limitations or restrictions apply to the property in which you are interested.
- (2) FEMA encourages every property owner to purchase flood insurance regardless of whether the property is in a high, moderate, or low risk flood area.
- (3) A homeowner may obtain flood insurance coverage (up to certain limits) through the National Flood Insurance Program. Supplemental coverage is available through private insurance carriers.
- (4) A mortgage lender making a federally related mortgage will require the borrower to maintain flood insurance if the property is in a special flood hazard area.

C. GROUND FLOOR REQUIREMENTS:

- (1) Many homes in special flood hazard areas are built-up or are elevated. In elevated homes the ground floor typically lies below the base flood elevation and the first floor is elevated on piers, columns, posts, or piles. The base flood elevation is the highest level at which a flood is likely to occur as shown on flood insurance rate maps.
- (2) Federal, state, county, and city regulations:
 - (a) restrict the use and construction of any ground floor enclosures in elevated homes that are in special flood hazard areas.
 - (b) may prohibit or restrict the remodeling, rebuilding, and redevelopment of property and improvements in the floodway.
- (3) The first floor of all homes must now be built above the base flood elevation.
 - (a) Older homes may have been built in compliance with applicable regulations at the time of construction and may have first floors that lie below the base flood elevation, but flood insurance rates for such homes may be significant.

Information about Special Flood Hazard Areas concerning _____

- (b) It is possible that modifications were made to a ground floor enclosure after a home was first built. The modifications may or may not comply with applicable regulations and may or may not affect flood insurance rates.
 - (c) It is important for a buyer to determine if the first floor of a home is elevated at or above the base flood elevation. It is also important for a buyer to determine if the property lies in a floodway.
- (4) Ground floor enclosures that lie below the base flood elevation may be used only for: (i) parking; (ii) storage; and (iii) building access. Plumbing, mechanical, or electrical items in ground floor enclosures that lie below the base flood elevation may be prohibited or restricted and may not be eligible for flood insurance coverage. Additionally:
- (a) in A-Zones, the ground floor enclosures below the base flood elevation must have flow-through vents or openings that permit the automatic entry and exit of floodwaters:
 - (b) in V-Zones, the ground floor enclosures must have break-away walls, screening, or lattice walls; and
 - (c) in floodways, the remodeling or reconstruction of any improvements may be prohibited or otherwise restricted.

D. COMPLIANCE:

- (1) The above-referenced property may or may not comply with regulations affecting ground floor enclosures below the base flood elevation.
- (2) A property owner's eligibility to purchase or maintain flood insurance, as well as the cost of the flood insurance, is dependent on whether the property complies with the regulations affecting ground floor enclosures.
- (3) A purchaser or property owner may be required to remove or modify a ground floor enclosure that is not in compliance with city or county building requirements or is not entitled to an exemption from such requirements.
- (4) A flood insurance policy maintained by the current property owner does not mean that the property is in compliance with the regulations affecting ground floor enclosures or that the buyer will be able to continue to maintain flood insurance at the same rate.
- (5) Insurance carriers calculate the cost of flood insurance using a rate that is based on the elevation of the lowest floor.
 - (a) If the ground floor lies below the base flood elevation and does not meet federal, state, county, and city requirements, the ground floor will be the lowest floor for the purpose of computing the rate.
 - (b) If the property is in compliance, the first elevated floor will be the lowest floor and the insurance rate will be significantly less than the rate for a property that is not in compliance.
 - (c) If the property lies in a V-Zone the flood insurance rate will be impacted if a ground floor enclosure below the base flood elevation exceeds 299 square feet (even if constructed with break-away walls).

Information about Special Flood Hazard Areas concerning _____

E. ELEVATION CERTIFICATE:

The elevation certificate is an important tool in determining flood insurance rates. It is used to provide elevation information that is necessary to ensure compliance with floodplain management laws. To determine the proper insurance premium rate, insurers rely on an elevation certificate to certify building elevations at an acceptable level above flood map levels. If available in your area, it is recommended that you obtain an elevation certificate for the property as soon as possible to accurately determine future flood insurance rates.

You are encouraged to: (1) inspect the property for all purposes, including compliance with any ground floor enclosure requirement; (2) review the flood insurance policy (costs and coverage) with your insurance agent; and (3) contact the building permitting authority if you have any questions about building requirements or compliance issues.

Help! I have mold (What is it?)

Mold is a type of fungus that is present everywhere in our natural environment. Mold spores, which are tiny microscopic 'seeds,' can be found anywhere, including inside homes, and are a part of the general dust found in homes. These spores can begin to grow on building materials and furnishings if they get wet or stay moist. If visible mold is allowed to grow unchecked, it will eventually damage what it is growing on, which may include both the building and personal belongings.

The key to preventing mold growth is preventing moisture problems by finding and stopping the source of moisture such as a plumbing or roof problem and then quickly fixing and drying any water leaks or spills that might occur. Common moisture problems include pipe leaks, roof leaks, floodwaters, sewage back-ups and over-flowing toilets/sinks/bathtubs.

Tenants should promptly notify their landlord when they find a moisture problem or mold growth. Any conversations should be followed up with a letter to the landlord to avoid misunderstandings. Sending such a letter by certified mail, return receipt requested, provides the best proof that it has been received. Keep a copy of the letter for future reference.

What can TDLR do?

TDLR regulates professionals who provide mold assessment and remediation services in Texas to ensure that the public has access to mold assessors and remediators who are properly trained and licensed. TDLR does not have regulatory authority to require inspection or testing for moisture or mold in homes, apartments or other buildings and cannot require a landlord or someone else to clean or remove mold.

MOLD REMEDIATION CONSUMER PROTECTION

For more information, please contact the TDLR Office of Strategic Communication: media.inquiries@tdlr.texas.gov

TXR 2507

Is mold testing necessary?

Generally, it's not necessary to identify the species of mold growing in a residence, and the Centers for Disease Control (CDC) does not recommend routine sampling for molds. It's more important to find the source of the moisture and eliminate it, otherwise the problem will return. When the moisture is eliminated, the mold will no longer grow and will die.

If you or your landlord choose to pay for testing before remediation work starts, the licensed mold assessment consultant who will do the assessment should establish criteria for interpreting the test results. When mold cleanup is necessary, the licensed mold assessment consultant will develop a protocol that the mold remediation contractor will follow. The protocol will specify the estimated quantities and locations of materials to be remediated, methods to be used and cleanup criteria that must be met.

The results of mold samples taken in your unique situation cannot be interpreted without physical inspection of the contaminated area or without considering the building's characteristics and the factors that led to the present condition.

TDLR recommends that people consult a health care provider if they are concerned about the effects of mold on their health.

What can I do about the mold?

Tenants and landlords should try to work cooperatively to investigate and correct moisture problems and remove mold growth. If you can see mold or smell a musty odor, carefully inspect the home, paying special attention to hidden areas such as plumbing access areas, crawl spaces, behind mirrors and furniture, attics, closets and cupboards.

Mold growth should be cleaned from non-porous surfaces such as concrete, metal, glass, tile, and solid wood. Mold growth is difficult to clean from absorbent (porous) surfaces such as drywall, carpet, fleecy furnishings and insulation, so these kinds of moldy materials should be removed and discarded.

Merely applying a chemical such as bleach to drywall, without removing the mold source, is not a permanent effective solution. Painting over mold is also not an effective solution.

Personal belongings can be kept if there is no mold growth on them. These items may need a deep cleaning to remove mold particles (spores) that have settled in the fabric.

Who can do this work?

TDLR licenses people and companies who inspect and test for mold in buildings (mold assessment), and those who clean and remove mold (mold remediation). Be sure to confirm that the professionals you're hiring are licensed by TDLR to perform this service.

In most instances, areas of visible mold less than 25 contiguous square feet in area may be cleaned or removed by people who are not licensed.

- Owners or managers of buildings with fewer than 10 dwelling units do not have to be licensed to perform mold assessment or mold remediation on a residential property. This exemption applies regardless of the total surface area within the residential property that is affected by mold growth.
- The remediation of 25 contiguous square feet or more of visible mold in residential properties with 10 or more units must be conducted by a licensed Mold Remediator. Small areas of mold growth (less than 25 contiguous square feet) can be cleaned/removed by an owner or by maintenance staff.

My landlord won't do anything about the mold. Who can help me?

Mold issues are typically governed by the lease agreement and treated like other maintenance matters where you would submit a written request to your landlord or property owner. Current Texas law does not require landlords or property owners to inspect for or clean mold.

TDLR cannot advise you on legal issues such as paying rent, requesting to be moved to another unit, breaking your lease, or preventing an eviction. Tenants are encouraged to work with their landlords and property owners to come to mutual agreement about how to deal with a mold situation.

Here are some resources:

- A tenant can try to file a complaint with the local city or county health department. You can find listings of Local Health Departments in Texas at: <http://www.dshs.texas.gov/regions/lhds.shtm>.
- You could contact your City Building Official (Code Compliance). The building official may inspect the unit to determine if it is structurally sound. They may also, in some cases, enforce maintenance provisions of the building code.
- The Texas Office of the Attorney General (OAG) has advice for consumers here: www.oag.state.tx.us/consumer/tenants.shtml.
- For legal assistance, you may wish to contact the State Bar of Texas Lawyer Referral and Information Service: (800) 252-9690.

Mold prevention tips

- Use a towel or squeegee to dry off wet surfaces after bathing. Bathtub or showers corners and joints, including tile crevices, are more susceptible to mold growth, so be sure to dry off those surfaces.
- Keep humidity levels as low as you can — no higher than 50% — all day long. An air conditioner or dehumidifier will help you keep the level low.
- Use air conditioner or a dehumidifier during humid months.
- Clean bathroom with mold-killing products.
- Do not carpet bathrooms.
- Quickly clean up and dry any liquids that might get on carpets. (If carpets stay wet, notify the landlord).
- Ensure good air movement in your home: open windows when possible.

TXR 2507

TEXAS REAL ESTATE CONSUMER NOTICE CONCERNING HAZARDS OR DEFICIENCIES

Each year, Texans sustain property damage and are injured by accidents in the home. While some accidents may not be avoidable, many other accidents, injuries, and deaths may be avoided through the identification and repair of certain hazardous conditions. Examples of such hazards include:

- # malfunctioning, improperly installed, or missing ground fault circuit protection (GFCI) devices for electrical receptacles in garages, bathrooms, kitchens, and exterior areas;
- # malfunctioning arc fault protection (AFCI) devices;
- # ordinary glass in locations where modern construction techniques call for safety glass;
- # malfunctioning or lack of fire safety features, such as smoke alarms, fire-rated doors in certain locations, and functional emergency escape and rescue openings in bedrooms;
- # malfunctioning carbon monoxide alarms;
- # excessive spacing between balusters on stairways and porches;
- # improperly installed appliances;
- # improperly installed or defective safety devices;
- # lack of electrical bonding and grounding; and
- # lack of bonding on gas piping, including corrugated stainless steel tubing (CSST).

To ensure that consumers are informed of hazards such as these, the Texas Real Estate Commission (TREC) has adopted Standards of Practice requiring licensed inspectors to report these conditions as "Deficient" when performing an inspection for a buyer or seller, if they can be reasonably determined.

These conditions may not have violated building codes or common practices at the time of the construction of the home, or they may have been "grandfathered" because they were present prior to the adoption of codes prohibiting such conditions. While the TREC Standards of Practice do not require inspectors to perform a code compliance inspection, TREC considers the potential for injury or property loss from the hazards addressed in the Standards of Practice to be significant enough to warrant this notice.

Contract forms developed by TREC for use by its real estate license holders also inform the buyer of the right to have the home inspected and can provide an option clause permitting the buyer to terminate the contract within a specified time. Neither the Standards of Practice nor the TREC contract forms requires a seller to remedy conditions revealed by an inspection. The decision to correct a hazard or any deficiency identified in an inspection report is left to the parties to the contract for the sale or purchase of the home.

This form has been approved by the Texas Real Estate Commission for voluntary use by its license holders. Copies of TREC rules governing real estate brokers, salesperson and real estate inspectors are available from TREC. Texas Real Estate Commission, P.O. Box 12188, Austin, TX 78711-2188, 512-936-3000 (<http://www.trec.texas.gov>)

INSPECTOR INFORMATION

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS®, INC. IS NOT AUTHORIZED.
©Texas Association of REALTORS®, Inc. 2014

TO: _____ (Buyer Seller)

FROM: Raymond Leon & Associates, LLC (Broker's Firm)

RE: _____ (Property)

DATE: _____

The attached list includes inspectors licensed by the Texas Real Estate Commission and may also include other persons authorized by law to perform certain inspections (for example, termite inspectors, engineers, electricians, or plumbers). The list is not a complete list of all inspectors that may perform inspections. You may also obtain a list from other sources (for example, the local telephone directory or the Internet).

This firm strongly recommends that you hire inspectors to help you evaluate the condition of the Property.

Inspections are of conditions which are present and *visible* at the time of the inspections. Property conditions change with time and use. Inspectors are not likely to point out small problems or defects that are not reasonably observable at the time of inspection. Inspectors will not move furniture, appliances, permanent coverings, or other obstructions. Neither inspectors nor real estate licensees can guarantee future performance of any item.

This firm does not recommend any particular inspector and does not warrant the quality of any inspector's inspection.

It is recommended that you accompany the inspectors during the inspections. You should address any questions about an inspection directly to your inspector.

Real estate licensees are not inspectors by virtue of their real estate licenses.

It may be necessary to make certain arrangements for the inspectors, such as providing access and turning on utilities.

Receipt of this notice is acknowledged and: I choose to hire an inspector.
 I choose not to hire an inspector.

CAUTION

U.S. Department of
Housing and Urban
Development
Federal Housing Administration (FHA)

OMB Approval No: 2502-0538
(exp. 06/30/2021)

For Your Protection: Get a Home Inspection

Why a Buyer Needs a Home Inspection

A home inspection gives the buyer more detailed information about the overall condition of the home prior to purchase. In a home inspection, a qualified inspector takes an in-depth, unbiased look at your potential new home to:

Evaluate the physical condition: structure, construction, and mechanical systems; Identify items that need to be repaired or replaced; and Estimate the remaining useful life of the major systems, equipment, structure, and finishes.

You Must Ask for a Home Inspection

A home inspection will only occur if you arrange for one. FHA does not perform a home inspection. Decide early. You may be able to make your contract contingent on the results of the inspection.

Appraisals are Different from Home Inspections

An appraisal is different from a home inspection and does not replace a home inspection. Appraisals estimate the value of the property for lenders. An appraisal is required to ensure the property is marketable. Home inspections evaluate the condition of the home for buyers.

FHA Does Not Guarantee the Value or Condition of your Potential New Home

If you find problems with your new home after closing, FHA cannot give or lend you money for repairs, and FHA cannot buy the home back from you. Ask a qualified home inspector to inspect your potential new home and give you the information you need to make a wise decision.

Radon Gas Testing and other safety/health issues

The United States Environmental Protection Agency and the Surgeon General of the United States have recommended that all houses should be tested for radon. For more information on radon testing, call the toll-free National Radon Information Line at 1-800-SOS-Radon or 1-800-767-7236.

Ask your home inspector about additional health and safety tests that may be relevant for your home.

Be an Informed Buyer

It is your responsibility to be an informed buyer. You have the right to carefully examine your potential new home with a qualified home inspector. To find a qualified home inspector ask for references from friends, realtors, local licensing authorities and organizations that qualify and test home inspectors.

HUD-92564-CN (6/14)

CAUTION
